

UFCW 951 & MEIJER: FLINT WATER PURCHASE PROGRAM

UFCW 951 has arranged for a discounted rate with Meijer for any organization that would like to purchase large quantities of water for Flint. Donating water through Meijer is convenient, and your participation in the lifting, pulling and loading of water isn't necessary.

Your organization can reserve your own truck loads, or UFCW 951 will assist those who can purchase a portion of a truck load by combining your contributions with other organizations in order to have full trucks delivered to the residents of Flint.

THE COSTS ARE AS FOLLOWS:

One truck will deliver
OVER 36,000 bottles of
water to residents of Flint!

UFCW 951 represents Meijer employees in retail stores, distribution centers and the entire fleet of truck drivers. All water will be loaded by UFCW 951 members at the distribution centers and then driven by a UFCW 951 driver to the Flint area food bank warehouse for distribution to the residents of Flint.

TO RESERVE YOUR TRUCKS OF WATER, OR FOR MORE DETAILS, CONTACT TODD REGIS WITH UFCW 951 AT 1.800.999.0951 EXT. 111.

***NOTE: Due to heavy demand, trucks carrying 35-packs of bottled water are no longer available. Therefore, prices have changed since the beginning of this project. Manufacturers are now filling trucks with 24-packs, so the trucks can hold more water. These are the new prices, with a full truck holding over 36,000 bottles of water.**
